

EXCITING NEW CHANGES IN 2022 FOR SSIPA

The end of this year marks the 5th year anniversary of [SSIPA](#). Our association was founded for the purpose of serving the competitive needs of the senior pickleball community. Playing others in our age group with similar skill levels has made our competition format popular for seniors across the country.

As the end of 2021 nears, the sport of pickleball is seeing a number of changes that are having a direct impact on the senior pickleball community. The cost of tournament entry fees is going up with little change in the quality of service. Tournament management fee costs are increasing at the same time. Association fees have increased dramatically as well. Many seniors have suffered the effects of the current rating system where their ratings have declined steadily by being put in brackets with younger players of similar skill levels.

Your SSIPA Board has decided it is time to make some exciting new changes for 2022 and the future of senior pickleball. In the new year, [SSIPA](#), a non-profit corporation will begin operating across our nation as **US Senior Pickleball (USSP)**. [SSIPA](#) will continue to be the international part of the corporation. These changes will bring a number of benefits to our growing membership. Every [SSIPA](#) member will have dual membership with *no additional cost* in both US Senior Pickleball and [Super Senior International Pickleball Association](#)

Here are some of the key benefits/changes for 2022:

- Anyone over 50 will be able to play in a USSP tournament.
- Membership in USSP will be needed to participate in the points system and to receive a tournament registration discount.
- Annual membership fee and renewals will remain the same at \$20.
- Use a rating system designed for senior play that only uses senior matches.
- Use a management system that works for tournaments/leagues/ladders.
- Simple, easy to use registration and payment process.
- Use USSP Zones of play for tournaments and Zone Championships.
- Provide National Championship and Open Championship tournaments.
- Continue the points/reward system with over \$20,000 in prizes.

A new **website** is being developed and will use both USSENIORPICKLEBALL.org and USSENIORPICKLEBALL.com for access. Membership will be notified when the website will become available. A number of sections are under revision at this time. SSIPA-PB.com and SSIPA-PB.org will continue in use until February 2022. Members will still be able to access the points system and tournament listings for registration and results. Membership registration will continue as well.

Tournaments will be listed exclusively in pickleballbrackets.com software over the next six months as the 2022 schedule is developed. There will be three zones for competition with 10+ tournaments listed in each zone. USSP will have zone directors for the East, Central, and West zones. In 2022, there will be two national level tournaments – US Senior Open and US Senior Nationals. More information about these special events will be coming in the next few months.

Below are three very important items: 1) A FAQ's sheet that will be expanded. Send questions to ussphelp@gmail.com. 2) Learn how to access and use the pickleballbrackets.com management software, create a **profile** and enter your **ratings** information. 3) The geographic listing of the three zones for tournaments in the United States and the contact person for each zone.

General information regarding your ratings in pickleballbrackets.com:

- You have the opportunity to set your rating. Once you play in a USSeniorPickleball tournament using these ratings, then the algorithm will adjust your rating up/down based on match results.
- Once your rating is adjusted, etc., after the first tournament, you will not have the ability to adjust your rating manually.
- Keep in mind that USSP controls this ratings system and process. USSP will not be constrained to make changes by going thru USAP. If the formula needs adjusting, USSP can do that.
- One advantage of the pickleballbrackets.com algorithm is that it adjusts for the score differential in matches.
- You can merely insert the 4 digit ratings as they are now in USAP or you can adjust them up.
- The max you can adjust up per each of three rating types is to the next “skill level.”
- For example if you are at 4.125 in doubles, you could go to 4.500.
- You can adjust anywhere in between in the upward direction.
- For example you can go from 4.125 to 4.320.
- You should not downgrade any rating for example, 3.511 to 3.114. This is because of the tendency of some players to “sand bag” and play at a lower skill level in tournaments.
- You are on the “honor system” with regard to inputting your 4 digit ratings. USSP will not “police” or check these ratings.
